

# DTU-1031X

The DTU-1031X is the economical solution for corporate or institutional customers who require a display with a minimal footprint that allows users to view or fill out full-size documents and sign them electronically. With its 10.1" LCD, customers can clearly see the contents of a document and sign with confidence.

## DTU-1031X features and benefits

- 10.1" color LCD panel with 1024 x 600 resolution to view and sign documents
- A single USB cable supplies power and data, minimizing clutter at the counter or point-of-sale
- Patented cordless, battery-free pen with 512 levels of pressure sensitivity for high quality signing and writing experience
- Advanced RSA/AES encryption to perform secure transactions
- Slim profile allows it to be used flat on the counter, or at an angle with the integrated stand
- Hardened, anti-glare surface provides high durability and easier viewing in different lighting conditions, with a paper-like feel
- VESA mounting holes allow for mounting options or use of third party arms and stands

Our DTU-1031X combines a 10.1" LCD panel with Wacom's patented pen technology for an excellent solution for viewing and signing full-size documents. Advanced encryption is included to ensure secure transactions. This unit connects to PCs with just one USB cable to reduce clutter. Its surface is completely flat, and can be mounted into kiosk or POS systems. The DTU-1031X's slim design is perfect for using flat on counters, and also includes an integrated stand to use at an angle. VESA mounting holes are provided to allow for use with third party arms and stands.
